SPECIFICATIONS – No. 1203 Two-Way Tire Merchandiser
(For use with Tote Jack No. 1898)

Length: 52"

Width: 24-1/2" (29" including display tires)

Height: 79-1/2" to top of sign

Construction: Framework is 1" OD x 18 gauge steel tubing (1" OD x 16 gauge on lower rails). Rigid end is fitted with 11 gauge steel angle for engagement with lift pin on Tote Jack and with large diameter "feet" to avoid damaging blacktop court surfaces. Tire rails are one-piece welded assemblies with die-formed tee connectors at each end. Upper tires rest between end frames and center tube supports, and are held securely in position by formed steel retainer clamps.

Wheels: 8" OD x 1.75" heavy-duty semi-pneumatic tires on pressed steel or high-impact polyolefin hubs.

Axle: ½" OD x 16 gauge welded steel tube, bright zinc chromate plated.

Axle Cover: .706" OD x 19 gauge zinc plated tubular steel.

Fasteners: Bright zinc plated; nuts are hardened spring-prong type.

Finish: Black baked enamel, after thorough cleaning and phosphatizing.

Sign: 20 gauge steel, 11-1/2" x 48", cleaned and phosphatized before finishing. Base color, screened copy, and clear top coat are all baked for durable long-lasting finish. Sign is attached to formed steel channel fastened to diagonal upper tube structure. Standard sign legends are "TIRE BARGAINS" or "GET OUR DEAL"!" – processed in blue or bright red on white base color. Copy is double face.
NOTE: This sign is the same as used for Nos. 1278, 1804, and 1806. Special copy on signs is available on firm-quantity commitment order. For requirement involving special signs, please request quotation, indicating colors, copy required, and quantity.

Packaging: Individually cartoned, KD, with illustrated assembly instructions. Shipping weight 43#. Exterior carton size: 49" x 24" x 3-3/4". Package qualifies for shipment by United Parcel Service.

Availability: Stock – no specific quantity purchase commitment required. Orders should specify choice of message and color on standard legend signs.
